<b>Devyatova G. I., Devyatova S. V.</b> Differential approach in teaching web programming .....	36
<b>Keller M. G., Miroshnichenko Y. A., Ignatyeva D. A.</b> Investigation of the Web-based platform possibilities used for knowledge assessment in the distance learning system.....	40
<b>Klimenko O. A., Rychkova E. V., Shabalnikov I. V.</b> The SB RAS portal as a basis of knowledge about the scientific corporation.....	44
<b>Kozmin E. V., Darda K. A., Sokovishin V. V.</b> Teaching the course “Fundamentals of web programming” in the framework of Moscow department of education and science project implementation “IT class in the moscow school” on the basis of the state educational institution “Bauman engineering school № 1580” .....	48
<b>Konovalov A. A., Skryabin A. L.</b> Multimedia partition for the students’ independent work organization .....	51

<b>Korchazhkina O. M.</b>	
Solving planimetric tasks using affine transformations by ICT means.....	55
<b>Kuznetsov A. V.</b>	
Ancient greek annotated corpora for digital humanities and language teaching.....	61
<b>Matveeva T. V., Mashkova N. V., Tkacheva O. N., Kudryavtsev A.V.</b>	
The practice of implementing the educational program “Digital economy: innovative solutions for business” in the center of business education of Ural federal university of a name of the first Russian president B. N. Eltsin.....	66
<b>Mukharkina A. A.</b>	
The necessity for expert evaluation in the process of learning digital technologies for bachelors of fine and applied arts.....	71
<b>Nikolaeva E. M., Kotliar P. S.</b>	
Digital education practice: the problem of chronotope transformation.....	75
<b>Okoneshnikova E. A.</b>	
Scientific programming in julia: parallelizing a piece of code to improve performance.....	81
<b>Prokubovskaya A. O., Chubarkova E. V., Lyzhin A. I., Feoktistov A. V.</b>	
Organizational and pedagogical conditions of implementation of additional educational programs training teachers in the system of secondary professional education .....	87
<b>Raskatov E. Y., Misyura N. E., Mityushov E. A.</b>	
Modernization of group disciplines in mechanics for engineering specialties at training for modern industrial needs .....	91
<b>Rudnikov N. A., Romasevich P. V.</b>	
“Informatics and ICT” as a basis for training personnel for the digital economy.....	95
<b>Rusakov S. V., Rusakova O. L., Smolyakv M. D.</b>	
Planning of time costs of students’s educational activities within the framework of the score-rating system .....	100
<b>Suslova N. V.</b>	
Music teacher in the conditions of education digitalization (on the material of the lessons from “Russian electronic school”) .....	104
<b>Khodanovich A. I., Sorokina I. V.</b>	
Information systems in problems of formalization of geometric phase transitions.....	109
<b>Hopteriev Y. T.</b>	
Tools for visualization the process of writing program code in programming teaching.....	114
<b>Chernogubov D. E., Selezneva S. E.</b>	
Calculation of a rectangular plate for transverse load and its implementation on a computer	118
